SNAP

Survivors Network of those Abused by Priests

We are victims of child molesting clerics (priests, nuns, seminarians, bishops and ministers) and supporters who belong to a self help group called SNAP, the Survivors Network of those Abused by Priests. Together with the human rights group Center for Constitutional Rights, we are here to mobilize survivors of clergy abuse across Europe. We want all those who have been hurt by clergy, had a family member or loved one suffer this abuse, or has experienced the pain of this crisis in other ways to come forward and join SNAP at one of the following events:
